# Carbon-Free Home

Please join the Society of Women Environmental Professionals - NC Triangle Chapter for our October event featuring a special presentation and discussion with Rebekah Hren.

**Information about our presenter:** Rebekah Hren lives in Durham, where she and her husband Stephen are both actively involved with renewable energy, natural building, and edible urban gardening. Rebekah is a NABCEP-certified solar photovoltaic installer, licensed electrical contractor, and ISPQ-certified solar instructor for Solar Energy International.

**DATE: Wednesday, October 27, 2010**

**TIME: 6:00 – 8:00 pm**

**LOCATION: Nicholas School, Duke University  
Levine Science Research Center Room A247**

Want to live in an ecologically mindful home, but don't have the time or money to buy a chunk of land and start digging? Chances are it is simpler, cheaper, more practical, and makes more environmental sense to convert your existing residence into a green oasis than attempt the onerous task of building something from scratch. From conservation to all things solar to rainwater collection to edible landscaping, the Hrens detail how-to projects for all aspects of our homes that provide immediate empowerment, save money, and help restore the health of our planet and ourselves in their book, *The Carbon-Free Home*. Also, just released: *A Solar Buyer's Guide for the Home and Office*. Both will be available for sale at the event.

**REGISTRATION: Please RSVP to [swepnctriangle@gmail.com](mailto:swepnctriangle@gmail.com) by Monday, October 25 if you plan on attending so that we can get an accurate headcount. Directions and information will be emailed to those that RSVP.**

For questions regarding this event, or to RSVP, send an email to [swepnctriangle@gmail.com](mailto:swepnctriangle@gmail.com)
